

Firefighters and Safety

Who wants everyone to be safe? It's a firefighter of course. They help to teach families how to be safe. They teach families about fire safety rules. They teach you about what you should do in case of a fire in your house.

They would like you to make a floor plan of your home. Mark the best ways to get out of the house. Make sure that you have more than one way out in case one of the ways is blocked. Pick a spot outside where you can all

meet. Practice your plan by having fire drills a number of times during the year. When you are safely outside, then you can call 9-1-1 for help. Never go back into the house for anything.

Stay Safe

1. Never play with matches or lighters.
2. Do not touch lit candles.
3. Do not cook unless an adult is with you.
4. Be careful around irons, stoves, fireplaces, and grills.
5. Never touch electric cords, plugs, or outlets.
